YOUR TRUST, OUR FINANCIAL EXPERTISE

About us

The #1 Consulting Organization

Seasoned financial expertise and strong trust structure continue to underscore the operating philosophy of 911 Consultancy that started as a sole proprietorship in 2014 and finally got converted into a partnership firm. Our core businesses are spread over Insurance, Investing, Licensing, Taxation, and accounting services.

At the heart of our operations is a commitment to radically reduce our clients' business expenses and time spent behind numbers (which they can spend in enhancing their life). Anyone can do your books, but how many of them can drive profits for you while ensuring utmost work accuracy? We have continued to deliver this promise over the last seven years. This allowed our clients to live their lives with an assurance that comes from the knowledge of a secure future for them and their loved ones.

The background of the slide is a close-up photograph of a person's hand counting a large stack of banknotes. The hand is positioned in the upper left, with fingers carefully separating the bills. The stack of money is thick and occupies the center of the frame. In the foreground, there is a pile of various coins, including gold and silver ones, scattered on a dark surface. The overall lighting is soft, and the colors are muted, giving the image a professional and serious feel.

Our Story

Amarjot Singh Makkar

FOUNDER

A seasoned consultant, Amarjot found his calling in the financial landscape after completing his B.Com from HN BGU and subsequently clearing IPCC (Group 1) from the prestigious ICAI (The Institute of Chartered Accountants of India). Over the past 7 years, he has worked closely with a diverse range of clients, advising them on future plannings, growth strategy, and saving plans.

Amarjot previously served as an Accountant at CMI Hospital in Dehradun. During this time, he gained extensive experience advising and managing their books. Eventually, he switched from the regular to freelancing mode and helped clients from diverse backgrounds make sense of their finances. It was during this stint that he began envisioning a venture that would be a one-stop solution for clients from all walks of life.

His vision regarding the firm was simple: Enabling clients to make sense of the industrial jargon and helping them improve their financial health. The vision, finally materialized in the form of the 911 Consultancy in the year 2019.

Vaibhav Bawri Founder & CEO, VFS Pvt. Ltd.

We have known Amarjot for almost 5 yrs now and he has come across as a man of words and utmost faith and honour. When he started with 911, reckon we were the first lot of people whom he gave his services and then Vaga Investments was conceptualized, he made it all happen, from forming of company, nitty gritty of paperwork, compliance with rules and regulation, you name it and it was done without any hassles. His team is professional and they believe in delivering and make the client feel the most important asset.
